

City and Environment Programme

INTERNATIONAL CONFERENCE THURSDAY MARCH 11, 2010

Grand Lyon - Salle du Conseil - 20 Rue du Lac, 69003 LYON (Métro Part-Dieu)

Simultaneous translation

Created in 2006, the City and Environment Programme (PIRVE) is supported by the CNRS and the French Ministry of Ecology (MEEDDM). It aims to develop interdisciplinary research concerned with city-environment interactions, and to structure a scattered scientific community.

The objective of the March 11 Conference - aimed at the researchers and decision-makers involved in the urban-environmental research field - is twofold: first, to present some preliminary scientific outcomes from selected PIRVE projects (most of them still ongoing); second, to position these research initiatives in an international perspective, as reflected in the programme.

The conference is open to all researchers, decision-makers and stakeholders interested by the PIRVE themes and activities. Some PIRVE projects will also be presented in a poster exhibition.

Free registration: edith.besson@enpc.fr
Information and registration form: www.pirve.fr

GRAND LYON

- 9:00 Registration, coffee and installation of scientific posters
- 9:30 **Introductions**
Bruno Charles (Grand Lyon Vice-President)
Sabine Barles (PIRVE Director)
Emmanuel Raoul (Secrétaire permanent du PUCA - MEEDDM)
Patrice Bueso (Adjoint au chef du service de la recherche, CGDD - MEEDDM)
- 10:00 **1. Environmental health**
Florence Fournet (UMR Emergence des maladies virales, IRD, Marseille)
Jean Simos (Université de Genève, Suisse)
- 11:20 **2. Ways of life and urban climate**
Sinda Haouès-Jouve (Université de Toulouse II)
Cynthia Echave (Agència d'Ecologia Urbana de Barcelona, Spain)
- 12:40 Lunch buffet
- 14:10 **3. The city as a living environment: which urban natures?**
Hervé Daniel (Agrocampus Ouest)
Philip James (University of Salford, Manchester, UK)
- 15:30 **4. City environmental imprints**
Gilles Billen (UMR Sisyphe, CNRS et Université Pierre et Marie Curie, Paris), Fridolin Krausmann (Institute of Social Ecology, University of Klagenfurt, Vienna, Austria)
- 17:20 **5. Protecting urban areas: Testing co-developed projects**
Louise Bruno (Université de Paris Ouest Nanterre)
Glen Hyman (Centre de Sociologie des Organisations, Sciences Po/CNRS)
- 18:40 **Conclusions**
- 19:00 Complementary cocktail diner at Grand Lyon
